DESCRIPTION REVIEWS

The New Creator Pro is the latest addition to FlashForge's Creator family. Based on proven design of the Creator X chassis, the Pro is now enclosed. So you can print ABS better and more efficient than ever. The upgraded three-point platform leveling system is now more intuitive than ever. And the all-new heat resistant build platform support is now made of highly-durable metal. Guaranteed not to deform means more time printing and more fun. And a thicker Z-axis rod provides a more steady and precise movement. Every new addition and improvement syncs together in harmony. It simply works.

Key features and improvements:

- Sturdy metal frame is substantially more stable than the Creator's original wood frame.
- Warp-resistant 6.3mm aluminum build platform remains perfectly level under the stress of high heat.
- New heat-resistant metal platform supports replace plastic supports.
- New heavy-duty (10mm) z-axis guide rod ensures steady and precise movement.
- New acrylic cover encloses the chamber to insulate and protect ABS prints.
- New LED light illuminates the build chamber.
- New integrated LCD screen and button board functions error-free.
- Filament Compatibility: PLA, ABS, PLA Color Change, Pearl, ABS Pro, Elastic, PVA, HIPS, PETG, TPE, TPU, Conductive Filament, Flexible Filament, Metal Filled Filament, Wood Filled Filament, and PP.

Package Contains:

- FlashForge Creator Pro.
- 2 spool holders.
- 2 spools of filament (net weight: 2.2 pounds per spool, material, and color randomly selected).
- 2 filament guide tubes.
- An accessory bag containing nuts, screws, and hex wrench set.
- Power supply cable.
- USB cable.
- End stop switch cable (spare part).
- Acrylic covers kit.
- 4GB SD card (contains software, test sample files, and user manual).

Dimensions:

- Overall dimensions: 320 x 467 x 381 mm.
- Packing dimension: 590 x 470 x 580 mm.

Software:

- ReplicatorG
- Compatibility: Windows, Mac OS X, and Linux
- Print from SD card or over USB
- Input file type: STL, gcode

Printing:

- Build envelope: 225 x 145 x 150 mm.
- Build volume: About 5 liters
- Layer thickness: 0.1-0.3 mm. (adjustable)
- Nozzle diameter: 0.4 mm.
- Filament Diameter: 1.75mm (0.069in)
